EXPERIENCE

EAS Solution — *Lahore, Pakistan*
Full Stack Software Engineer — May 2026 – Present

- Work as the **sole developer** on an existing product, building **Angular** components, forms, and services and fixing bugs.
- Build and extend **ASP.NET Core Web APIs** in **C#**, and handle **SQL Server** work including queries, tables, and schema updates.
- Use **AI-assisted development** (**Cursor**, **Claude**) to ramp up quickly on the **Angular** and **.NET** stack and ship features independently.

Crewlogix Technologies — *Lahore, Pakistan*
Full Stack Software Engineer — Jun 2025 – May 2026

- Owned **file and folder management** for a secure storage SaaS end to end: **uploads**, **sharing**, **permission controls**, custom actions.
- Developed **AI-powered search** with **prompt-based** and **suggestion-based** querying, with **access control** scoping results per user.
- Implemented **Fully Homomorphic Encryption (FHE)** together with standard encryption to protect stored files and folders.
- Optimized **storage modules** for **stability and performance**; learned **Vue.js** on the job and met clients weekly.

GTek Solutions — *Lahore, Pakistan*
Full Stack Software Engineer — Nov 2022 – Jun 2025

- Led **frontend development** for **PreLabs**, owning the **React/Next.js** UI; adopted **Next.js** for client work after R&D.
- Built the **Chores module** from scratch for **Home School Panda** (**10K+ families**) using **React**, **Recoil**, and **Node.js/Strapi** APIs.
- Fixed **daylight-saving-time** and **time-zone** bugs for users across regions and handled ongoing **production support**.
- Implemented **Stripe** billing for New Wave Car Wash: **subscriptions**, **one-time payments**, **cancellations**, and **webhooks**.
- Built **Node.js** and **Strapi CMS** services with **GraphQL** and **REST APIs**; deployed dev servers on **AWS EC2** with **PM2**.

Technic Mentors — *Gujranwala, Pakistan*
Full Stack Developer — Jul 2021 – Nov 2022

- Started as an intern, promoted to Junior Developer; helped migrate a **C# desktop POS** to a **Laravel 8** and **SQL** web app.
- Built **React** components for internal tools and responsive client websites, and deployed Laravel apps to production on **cPanel**.

PROJECTS

Home School Panda (HSP) — app.homeschoolpanda.com

- Homeschooling platform used by **10K+ families**; built its **Chores module** with **React** and **Recoil** and supported it in production.
